### General Wood's Graft. Senator Overman brought up the sub-

ject of travel pay, especially as to the payment of General Wood's expenses on the occasion of his visit to the United States from the Philippines summer for the purpose of having a operation performed. Secretary Taft said the first intimation he had had that the general desired to come to Boston for the operation was received in a cablegram from General Corbin, who said that Wood was suffering from injuries received seven years ago in the line of duty and he asked secrecy because he did not want to alarm General Wood's mother. Wood was granted leave of absence by Corand he went to Hongkong on the Buford, which was sent there for re-pairs. The injury making necessary the operation was received by striking his head against a chandelier while he was in Cuba. Taft's Excuses.

Secretary Taft said the allowance came under the regulation for payment for public duty. He contended that an officer was as much on public duty when protecting his health as at other times.

Senator Overman called attention to the fact that General Wood first left Manila "on leave." but the secretary said the regulations fully cover the circumstances. He, however, did not consider the allowance of mileage from Manila to Hongkong and from Hongkong to San Francisco as legal. He had been absent at the time the allowance was made and upon reviewing the case he had reviewed the former finding and directed that the mileage allowance be changed so as to make it an allowance for actual traveling expenses. "Do you know of any other officer who has traveled on a liner and had his expenses paid instead of using a transport?" asked Senator Overman.

also asked that the same be distributed to the following districts: Wilson, Riverdale, Plain City, Warren, Farr West, Hot Springs, West Weber, Slaterville, Hooper and Roy.

The board is of the opinion that, in view of the betterment of the roads, the residents throughout the county should assist in the work, and it is likely that a special road tax of from 2½ to 5 mills will be levied.

## Corbin Tried to Work the Game.

This question, at which the witness laughed aloud, was followed by another Inquiry as to whether General Corbin had done so. He replied that Corbin had not. "He applied for an order but I did not give it." In this connection he referred to his last summer's trip to

"When we got to Hongkong." he said.
"I received an order from the president to go to Canton to interview the viceroy on the boycott and the officers accompanied me in uniform. Subsequently I gave them an order for the pay of their mileage on that trip, supposing that it covered only their extensions to Canton, but I found afterward that it had been construed as covering the entire trip to San Francisco. When this was explained to me I made a new order which was the same as the order made in the Wood case. General Corbin came on a liner and paid his own expenses."
